

Kentucky Office of Homeland Security

2009 Annual Report

Grant Section-3

Law Enforcement Protection Program

Law Enforcement Protection Program

The 2008 regular session of the Kentucky General Assembly designated the Kentucky Office of Homeland Security as the state agency to disburse funds designated for the protection of law enforcement officers.

On July 1, 2008, the Kentucky Office of Homeland Security assumed the program formerly known as the Body Armor Program. This new program, now referred to as the Law Enforcement Protection Program, enables our office to provide funds for equipment to law-enforcement agencies across the state. LEPP provides funds for body armor, fire arms, ammunition, electronic-control devices, electronic-control weapons or electron-muscular disruption technology to sworn peace officers. Service animals, as defined by KRS 525.010, are also eligible for body armor funding.

These funds are available for cities, counties, charter counties, unified counties, urban-counties, and consolidated local government police departments, public university safety and security departments, and sheriff's departments.

In awarding these grants, KOHS gives first priority to providing and replacing body armor and second priority to providing firearms and ammunition, with residual funds available for the purchase of electronic-control weapons or electron-muscular disruption technology.

Body armor purchased using LEPP funds shall meet or exceed the standards issued by the National Institute of Justice for body armor. Awarded recipients will be reimbursed after funds are expended and proper documentation is provided to the Kentucky Office of Homeland Security. Upon completion of the grant project, a final site visit may be conducted to verify compliance with the KOHS agreement.

Applications are accepted during the entire year. Applications are reviewed quarterly by KOHS staff, and with approval of the governor, are awarded based on available funding.

Funding:

Body Armor: LEPP provides \$750.00 for each considered unit of body armor requested and/or awarded. The unit price is determined by the current State Price Contract, which is updated each July 1.

Firearms and Ammunition: LEPP provides funding for duty, backup weapons, shotguns, and patrol rifles only. The program will also allow for the purchase of 500 rounds of ammunition for each duty, backup, and patrol rifle weapon awarded (100 shells-duty and 400 shells-practice). **Only semi-automatic "patrol rifles" will be authorized – no specialty weapons such as full auto rifles or submachine guns will be considered for funding.** The applicant must provide a copy of bids for the weapons and ammunition to determine award amount.

Electronic Control Weapons: LEPP funds the purchase of electronic-control weapons at \$800.00 per unit..

The Law Enforcement Protection Program is a joint effort in a partnership between the Kentucky State Police and the Kentucky Office of Homeland Security.

In 2009 the Law Enforcement Protection Program provided \$797,193.00 to 149 city, county and public university law enforcement agencies. The following spreadsheet provides more detailed information

Law Enforcement Protection Program Funding

Date Created	Legal Applicant	County	Amount Funded
