University of Kentucky	NIEHS Superfund Hazardous Substances_Basic Research and Education	Natl Institute of Environmental Health Sciences	Superfund NIEHS	4/00 - 3/05	\$1,688,412.00	\$0.00	93.143	To establish a unique program linking biomedical research with engineering, geoscience, and ecological research. The goals of the program are to establish and support an innovative program of basic research and training consisting of multi-project, interdisciplinary efforts that may include each of the following: (1) Methods and technologies to detect hazardous substances in the environment; (2) advance techniques for the detection, assessment, and evaluation of the effects of hazardous substances on humans; (3) methods to assess the risks to human health presented by hazardous substances; and (4) and basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances. It is intended to integrate advanced or graduate training into the multi-disciplinary research program to provide for training in: (1) Environmental and occupational health and safety; (2) the engineering aspects of hazardous waste control; and (3) graduate training in the geosciences (including hydrogeology, geological engineering, geochemistry, geochemistry, and related fields).	Research
University of Kentucky	State Rural Hospital Flexibility Program	Health Resources and Services Administration	State Rural Hospital Flexibility Program	9/03 - 8/04	\$583,800.00	\$0.00	93.241	To help States work with rural communities and hospitals to develop and implement a rural health plan, designate critical access hospitals (CAHs), develop integrated networks of care, improve emergency medical services and improve quality, service and organizational performance.	Community Service
University of Kentucky	Centers for Disease Control and Prevention_Investigations and Technical Assistance	Center for Disease Control and Prevention	Community-Based Participatory Prevention Research (Community Partnership)	9/02 - 9/04	\$459,000.00	\$0.00	93.283	To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts.	Research
